DESIGNER SKIN®

# Exclusive™

**18X Exclusive Bronze** uses cool-toned bronzers to provide instant transformation while DHA develops long-lasting color hours after use

**Wealth Whispers Complex** is a Rice Water and Propolis solution that combats free radicals and promotes skin hydration

**VIP Privilege** is a blend curated for smoothing effects and an even skin tone

**Wild Yam Extract** is a plant-based mucin that's extracted to give brightening properties and offer skin barrier protection

**Posh Silicone Blend** allows for an easy glide during application and leaves the skin softened and youthful

**Fragrance:** Elite Waters – Mandarin, Lemon, Cardamom, Caramel & Musk

**Exclusive™**

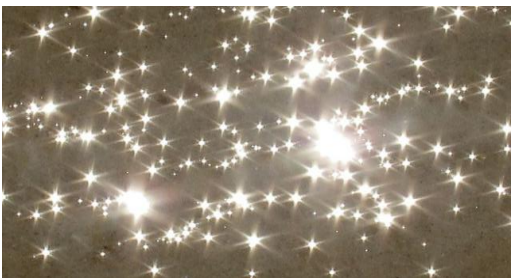

Wild Yam Extract

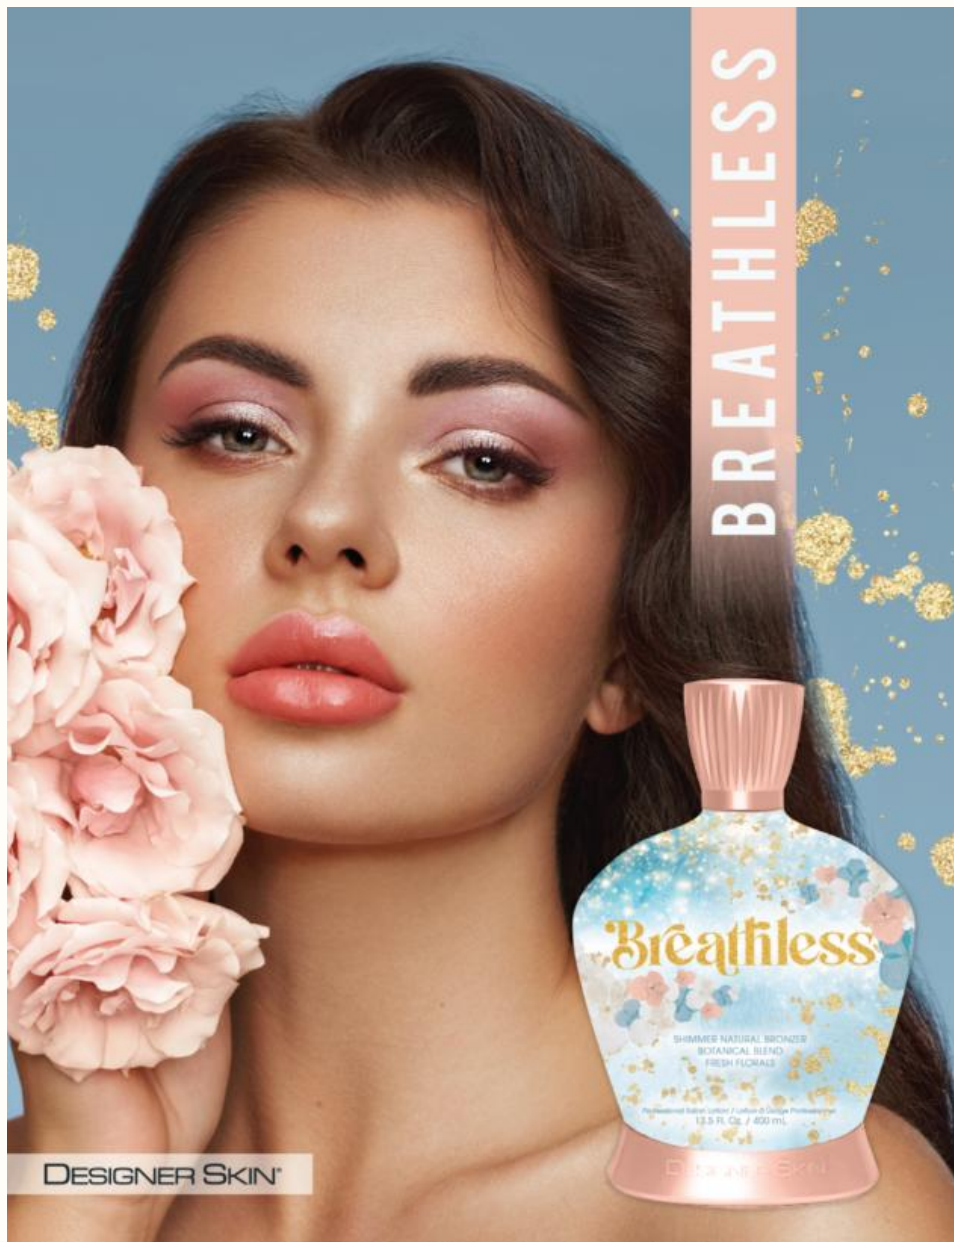

**Ingredient Spotlight: Is Wild Yam Root Extract (Phyto Mucin) The Newest Alternative to Snail Mucin?**

DESIGNER SKIN®

# Breathless™

**Golden Glow Bronzing Complex** gives the skin a glow with gold shimmer

**Botanical Blend** uses White Birch Bark and White Tea that balance the microbiome

**Fresh Florals** including Marigold, Water Lily and Chamomile all contain antioxidants which will leave the skin smooth and soothed

**Aloe Vera** is a powerhouse that deeply hydrates the skin and has calming properties

**Spirited Silicone** glides on the skin and leaves the skin smooth

**Fragrance:** Glimmering Goddess – Melon, Grapefruit, Jasmine, Cherry Blossom, Amber, Vanilla & Cedarwood

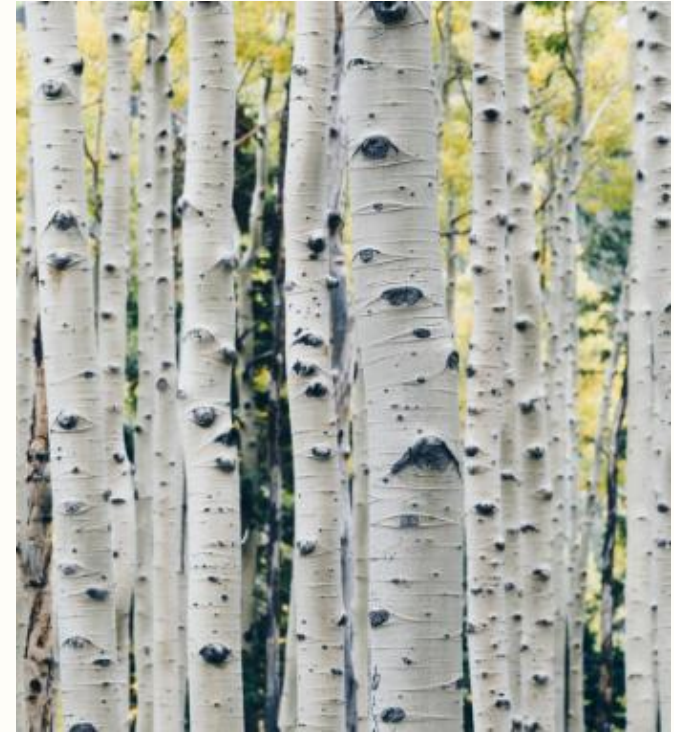

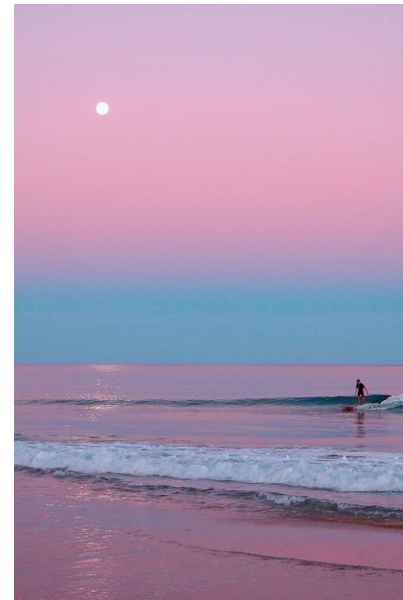

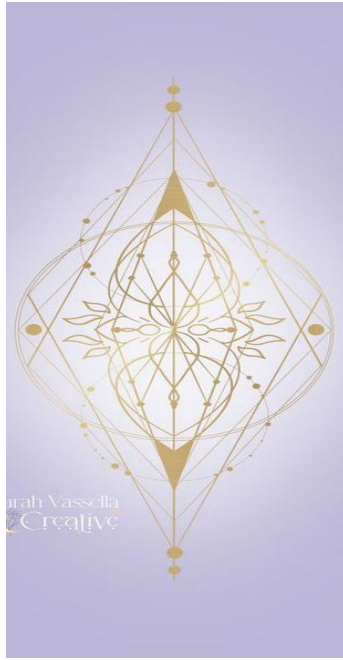

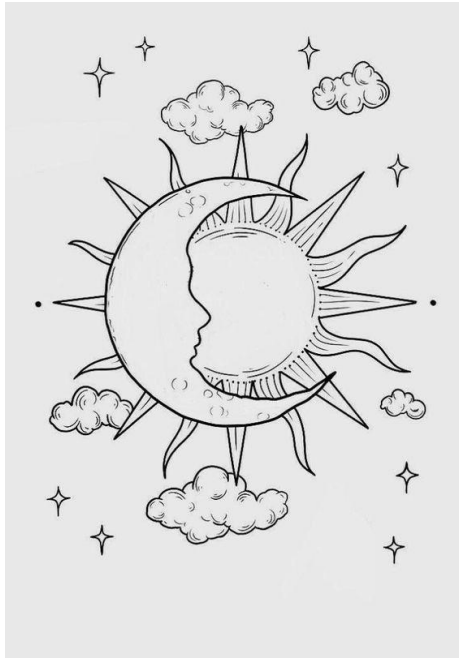

Breathless™

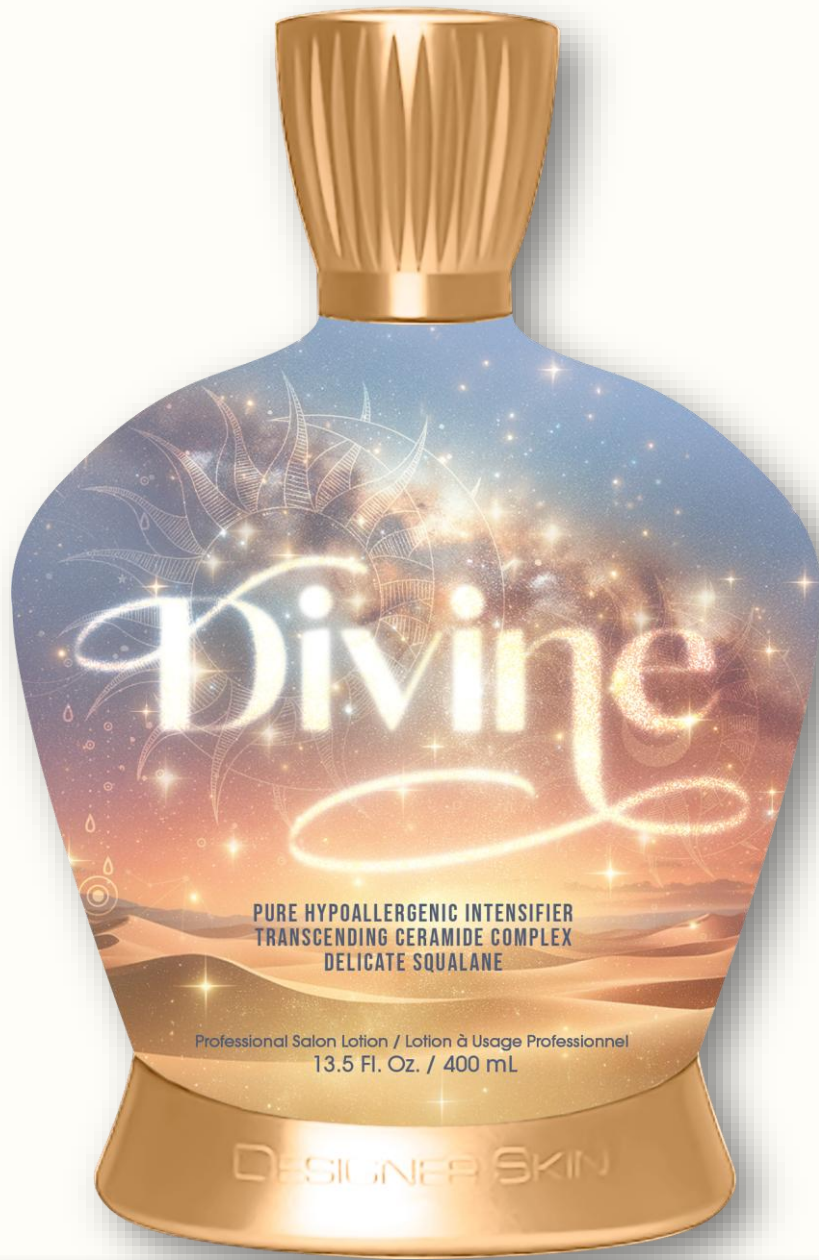

## Plant Based Beauty

DESIGNER SKIN®

# Divine™

**Pure Hypoallergenic Intensifier** accelerates the tanning process to build a vibrant tan suitable for sensitive skin

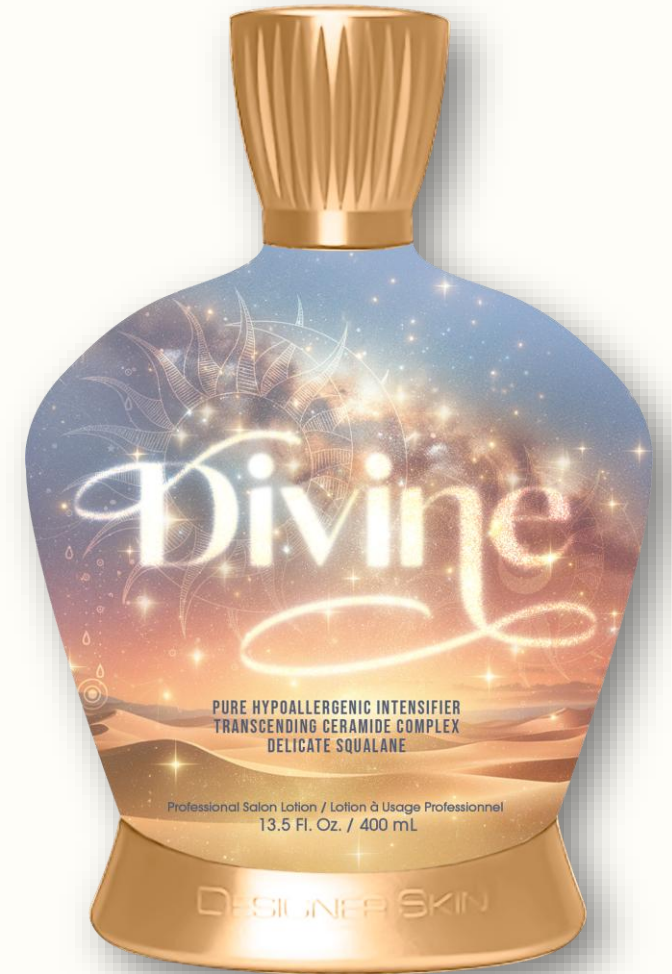

**Transcending Ceramide Complex** is curated to preserve skin strength and is proven to hydrate the skin

**Delicate Squalane** has antioxidant properties that preserve the skin's natural oils

**Sheer Silicone Blend** is an assortment of Silicones that glides and is soft on the skin

**Hypoallergenic & Vegan** blend means there are no additional gluten, parabens, nuts or soy

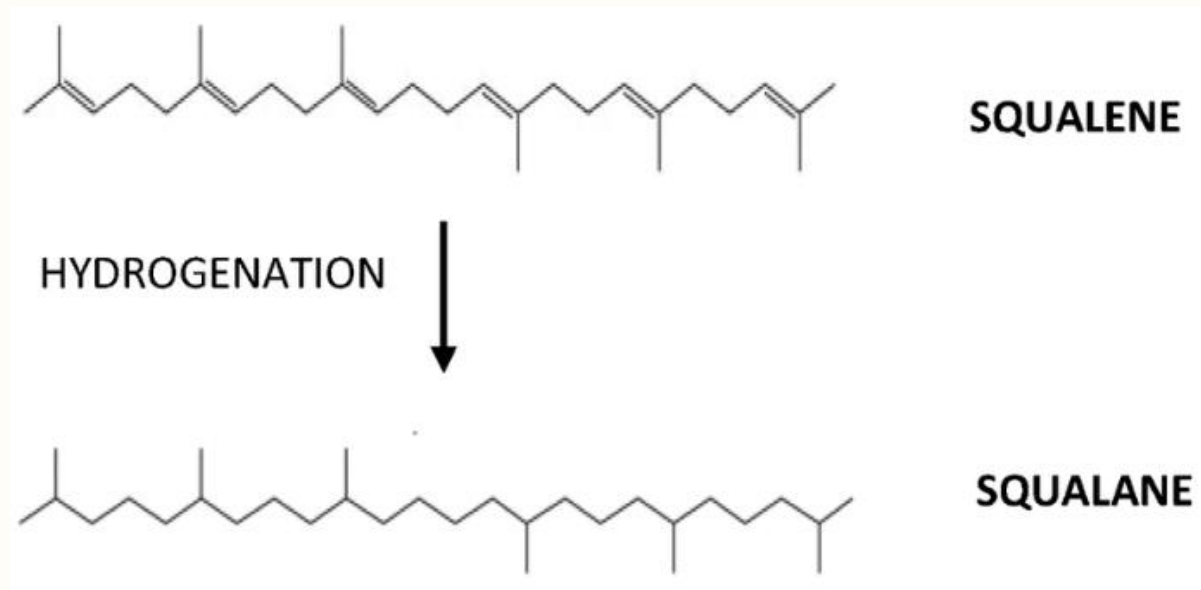

**Fragrance:** Raspberry Rosé – Citrus, Black Berries, Raspberry, Vanilla & Musk

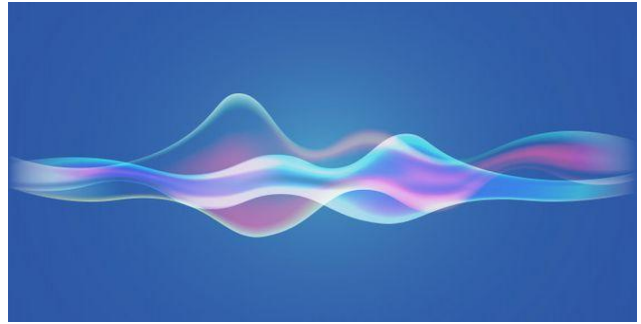

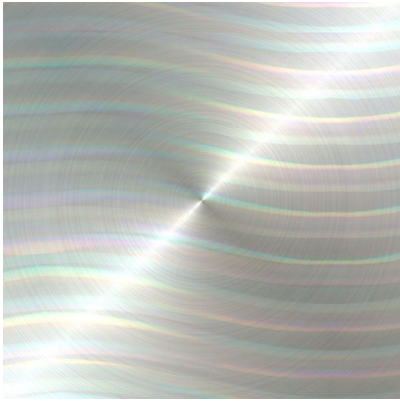

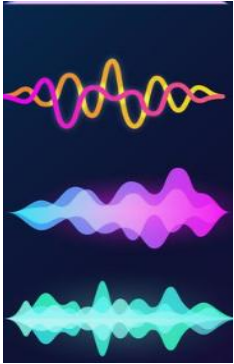

# Divine™

- Squalane = Hydrogenated version of Squalene
- Squalane is plant derived from olives and sugar cane
- Lightweight, nongreasy, mimics natural oils

DESIGNER SKIN®

# Wavelength™

**35X Vivid Bronzing Complex** contains a mixture of DHA and Caramel that gives an instant hue to the skin and continues to develop for a vibrant tan

**High Intensity Wellness** blends **Allosteris** and **Green Tea** and has age-defying peptides and powerful antioxidants. This helps collagen production intensify during wellness light sessions

**Power Duo** consists of amino acids and collagen synthesis that increases skin elasticity and boosts skin strength

**Electric Peptide** protects collagen from degradation

**Luminous Glaze** is a silicone blend that increases absorption and leaves the skin brightened

**Fragrance:** Ultraviolet Vanilla – Almond, Jamine, Vanilla, Cashmere, Cedar & Licorice

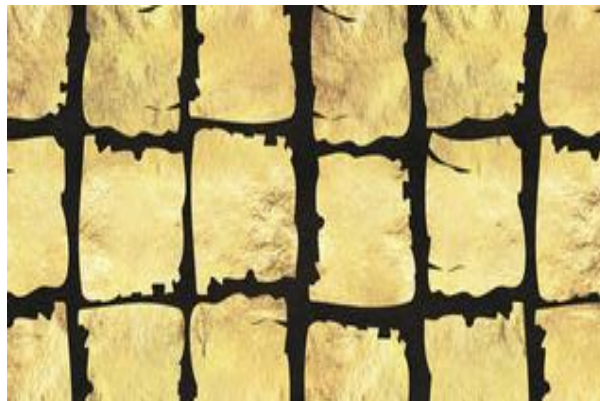

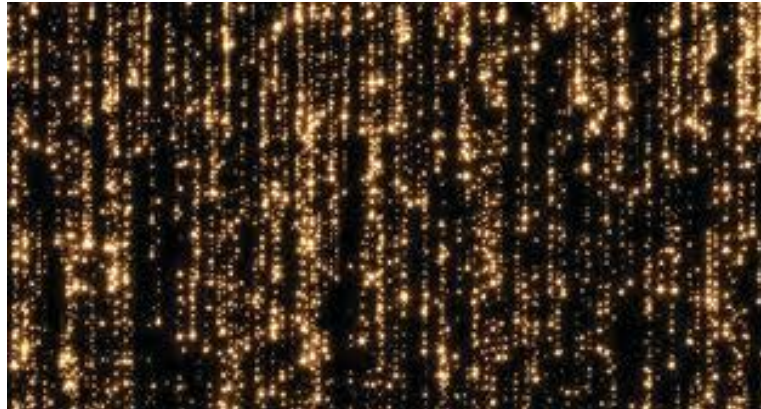

# Wavelength™

Collagen Support	
Red Light	Stimulate collagen production
Green Tea	Aids in collagen support
Power Duo; Glycine & Proline	Significant precursors to collagen synthesis
Electric Peptide	Collagen stimulating and collagen degradation reduction
Allosteris	Known to help enhance the effect of peptides

# DS Faux Natural Sunless CC Facial Primer™

**Double Dip Primer** is designed for combined use during a sunless session mixed with the intensity of UV color development to achieve a nice glow

**Color Correcting** utilizes pink tint to balance dark spots for an even bronzed look and it complements the instant color

**Pure Solar Peptides** accelerate the development of a richer and darker color while actively providing superior age-defying properties

**Caffeine and Coffee Seed** revitalizes the skin for a radiant and vibrant complexion

**Fragrance:** Passion Fruit Mango – Champagne, Passion Fruit, Peach, Mango Nectar & Vanilla

# DS Faux Natural Sunless CC Facial Primer™

## Pure Solar Peptides

### Pure Solar Peptides

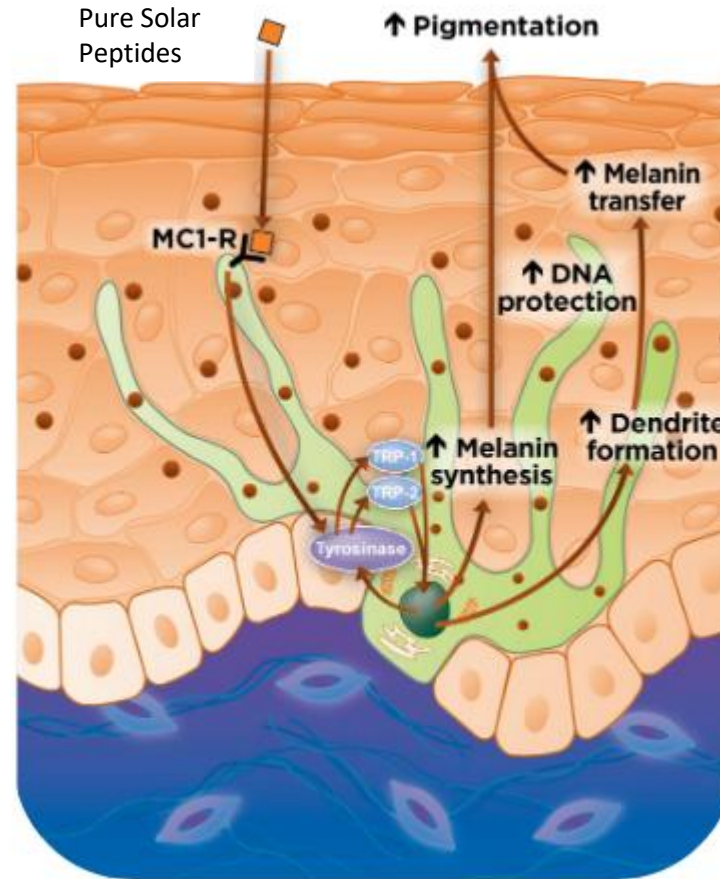

Activates  
tyrosinase activity

Increases melanin  
production in  
melanocytes

Improves the  
formation of dendrite

Improves transfer of  
melanin from melanocytes  
to keratinocytes

Enhances pigmentation  
(faster & long-lasting)

EVALUATION OF MELANIN STIMULATION
